

Fume/Smoke Collector Arms

*Collector Arms and Accessories for
Weld Fume, Smoke and Dust Collection*

Wall Mounted Arms

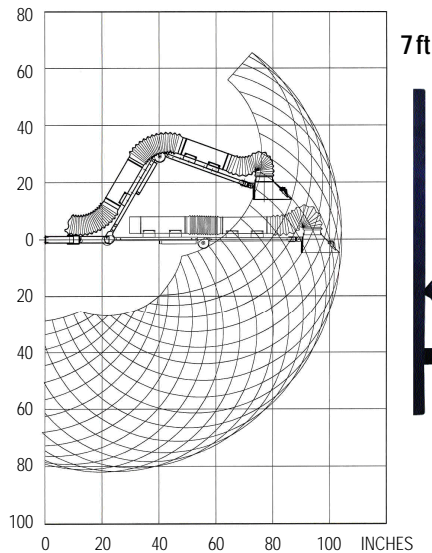

AAF's Fume/Smoke Collector Arms are durable, lightweight and one of the most flexible collector arm designs on the market. The arms are precision balanced with an external support structure that maximizes air flow through the arms.

The arms include a high impact polycarbonate hood with handle for easy positioning. Optional steel column wall supports are available along with wall mounted booms for the longer arm lengths.

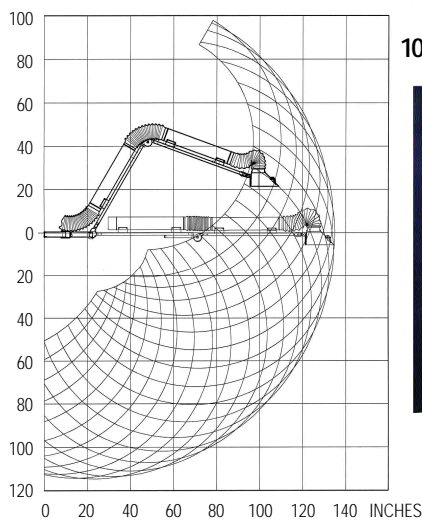

AAF's wall mounted collector arms come in 7, 10 and 14 foot lengths and a diameter of 6". An optional light kit is available for added visibility of your work.

ACCESSORIES

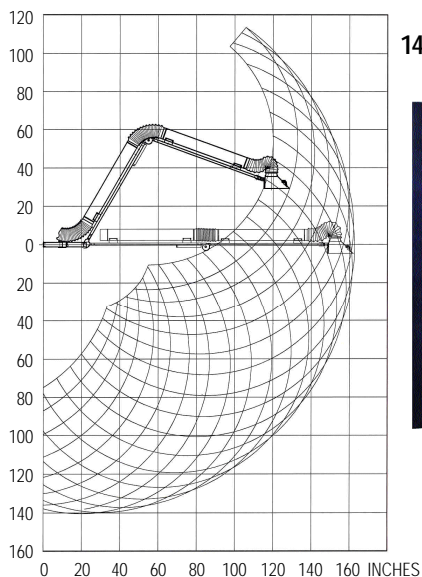

Available accessories include a 1 HP fan, wall bracket for the fan, 24V-20W light kit, transformer, switches for the light kit, wall bracket for the arm, and an extension boom.

Fume/Smoke Collector Arms

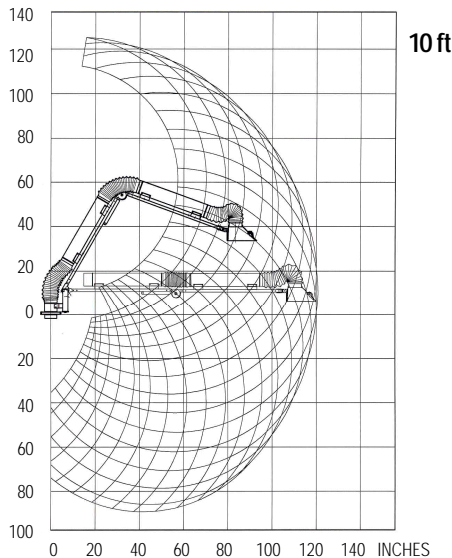

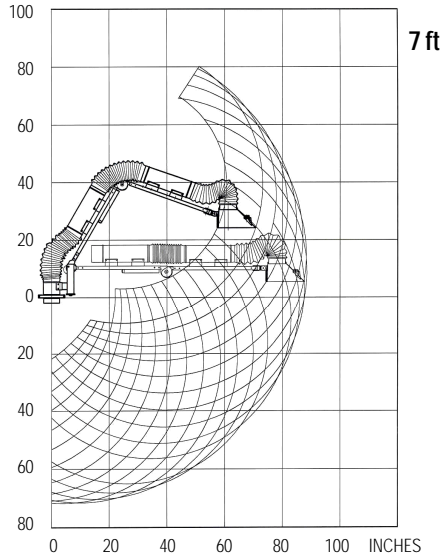

Unit Mounted Arms

AAF's Unit Mounted Fume/Smoke Collector Arms are designed to be mounted on AAF's Portable Equipment, but can be mounted on other AAF dust collection as well. The arms are precision balanced with an external supportstructure that maximizes air flow through the arms. The arms rest and swivel on a precision, ball bearing flange-mounted collar that can be bolted to the vacuum source.

AAF's unit mounted collector arms come in 7 and 10 foot lengths and a diameter of 6".

ACCESSORIES

Available accessories include 24V-20W light kit, transformer, switches for light kit, and an extension boom.
